

Strategic Healthcare Services

Reduce Time. Save Money. Increase Profitability.

THE SHS DIFFERENCE

SHS is a firm founded by supply chain professionals for supply chain professionals. Most third party advisory firms charge high fees for 100+ page reports containing flawed assumptions, unrealistic savings projections, no prioritization of objectives, and no implementation support. With over 20 years of industry experience we put client satisfaction at the center of every engagement.

EVERY PROJECT HAS THREE GOALS:

The ROI is measurable and evident

Clear project objectives with detailed implementation support

SHS feels like an extension of your team – not a third party firm
